PROFESSIONAL SUMMARY

Self-directed and motivated Front-End Developer with one year of experience building responsive and engaging experiences with future friendly web technologies. Bringing eight years of experience making an impact in the arts and education sector where I contributed to creating highly effective and interactive experiences and materials. Enthusiastic about collaborating with people of all backgrounds to accomplish meaningful projects that make positive impacts.

KEY SKILLS

HTML | CSS | Javascript | React | Bootstrap | Git | Github | Communication | Project Management | Collaboration | Problem Solving | Organization | Adaptability

PROJECTS EXPERIENCE

Rancho Morfin - *Bootstrap, Javascript*

- Used Bootstrap utilities and classes to create a modern, fully responsive and fast-loading webpage for a small business that meets my client's needs.
- Diagnosed performance issues with Google Developers PageSpeed Insights and formulated and implemented improvements by 20%. [Live](#) | [Repository](#)

My Portfolio Website - *HTML5, CSS3, Javascript*

- Conceptualized, designed, and implemented a personal website to showcase my projects and abilities. Utilized CSS Flexbox for layout and CSS transform for an engaging user interface. [Live](#) | [Repository](#)

Random Color Generator - *React*

- A front-end React application that I built to practice creating components, setting state and passing props. It helps designers find new colors for their schemes by setting the screen's background to a random color. [Live](#) | [Repository](#)

PROFESSIONAL EXPERIENCE

King City Union School District | King City, CA

September 2017 – June 2022

Music Teacher

- Communicated effectively with immediate team and cross-functional teams to manage six large and numerous small projects a year, team goals, answer questions, and divide tasks to drive project delivery ensuring performance, quality, strategy and timelines were achieved.
- Created and delivered presentations using multiple technology platforms to explain program policies, objectives, activities and procedures to colleagues, administrators and board members.
- Quickly and efficiently learned and adapted to troubleshooting and problem-solving when implementing educational technology during distance learning.
- Designed, created, implemented and organized over 100 digital lessons for better accessibility and to support the 1500 users in our care.
